- Start Beacon
- End Beacon
- Deep Padded Base

TAGactive® Dual Cyber Towers are timed web maze climb towers. The designs feature two separate towers side by side with start, mid and end beacons. Game instructions, previous and best scores are displayed on the large TV screen for each tower. The TAGactive® Cyber Towers associate all players scoring history with their account via their RFID wristband. Players receive split and total times for their attempts. A large TV scoreboard on the front displays the tower best times and all the times from the days use. Cyber towers are fully automated and do not require constant staffing. Cyber Tower use is age 8+

<b>Footprint Available</b>	1.83m x 3.66m
